## Ideation Phase Empathize & Discover

Date	20 November 2023
Team ID	61511A322310DCD872E42EBBA3D84B6E
Project Name	Ethereum decentralized identity smart contract
Maximum Marks	4 Marks

privacy and contributing to compliance with security of decentralized identity existing personal solutions. regulations. information. user-friendly Analyses the contract experience for code and architecture for tools for secure vulnerabilities. managing contract identity on the development. blockchain. clear instructions, Think & Feel Focuses on ensuring and assurance of that decentralized data security. See Hear identity solutions align with legal Say & Do frameworks. transparent communicatio compliance n from with developers. Actively standards. participates in provides Collaborates smart contract feedback to with the development developers community.

## Pain:

- Immersed in the audio experience
- Quality of sound, relevant content
- Listens to audio content, adjusts settings

## Gain:

- Clear and crisp sound, relevant content options
- Diverse content, easy navigation
